MEMORANDUM FOR: Assistant for Photographic Analysis
Chief, Photographic Intelligence Division

THROUGH : Assistant for Plans and Development

SUBJECT : Trip to Monitor the [REDACTED] Stereo Viewer

25X1A

1. The Development Branch of Plans and Development Staff is planning a monitoring trip to [REDACTED] on 7 July 1964. This trip is for a monthly progress review of the [REDACTED] Point Transfer Device and the four associated [REDACTED] High-resolution Stereo Viewers.

25X1A

25X1A

25X1A

2. Both PAG and PID are scheduled to receive a [REDACTED] Viewer. PAG's viewer is planned for completion in August while the PID unit is to be delivered in October. Because of the importance and the complex nature of the subject viewers, it appears prudent for representatives from PAG and PID to accompany the contract monitors.

25X1A

3. This trip would permit the users to become familiar with the equipment prior to delivery, provide them with an opportunity to offer constructive comments on the progress to date and perhaps, bring any discrepancies to the attention of the contract monitor.

4. Should you desire to have a representative accompany the P&DS monitor please notify P&DS. [REDACTED] can provide any additional information required.
